Thanks---I just caught what you are talking about. I think it is correct now.

Jeff,

One thing you might want to check. For the Excel tables, there is a column (typically G) that needed to have the label edited. please make sure that column G shows "\$/year" and not "\$million / year). Otherwise, look forward to seeing your latest version of the document.

that's all.

tina

Mike:

Your edits are done and the Public Demonstration is off to Carrie Greely for some final formatting. Then, off to Tina and EPA when Carrie is done. I asked Carrie to do it ASAP, but I know that she has several other projects with the same timeline. Thank goodness for our administrative assistants!
